Energy Policy

Index to Volume 14

February, April, June, August, October, December 1986

Articles – titles

Electricity

Electricity trade in the UK: economic prospects and future uncertainty. *Hadi Dowlatabadi and Nigel Evans*. 14.1, 35–44

Energy conservation and electricity utilities: a comparative analysis of organizational obstacles to CHP/DH. *Wolfgang Rüdig*. 14.2, 104–116

Joint supply – demand optimization in electricity supply. *T.W. Berrie and M.A.M. Anari*. 14.6, 515–527

US power plant location and fuel mix: opportunities for electricity exporting regions. *Frank J. Calzonetti, Patrick C. Mann and Tom S. Witt*. 14.6, 528–541

Energy conservation and efficiency

An economic appraisal of local energy conservation schemes. *Richard R. Barnett*. 14.5, 425–436

The economics of improved charcoal stoves in Kenya. *Eric L. Hyman*. 14.2, 149–159

Energy conservation and electricity utilities: a comparative analysis of organizational obstacles to CHP/DH. *Wolfgang Rüdig*. 14.2, 104–116

Energy conservation in low-energy intensive firms in the UK. *Homa Motamen and David McGee*. 14.2, 117–132

Energy conservation programmes: the analysis and measurement of their effects. *Raymond S. Hartman*. 14.5, 425–436

An energy–efficient future: a strategy for the UK. *John Chesshire*. 14.5, 395–412

Information technology and energy supply. *William Walker*. 14.6, 466–488

The social–psychological foundations of successful energy conservation programmes. *Scott Coltrane, Dane Archer and Elliot Aronson*. 14.2, 133–148

Vehicle stock modelling of highway energy use: Tunisian and US applications. *David L. Greene, Nabil Meddeb and Jin-Tan Liu*. 14.5, 437–446

Energy security and international trade

Gas market prospects and relationship with oil prices. *Jacques Percebois*. 14.4, 329–346

The impact of Middle Eastern methanol exports to Western Europe. *John C. Fahy*. 14.1, 24–34

Security of supply in the Western European market for natural gas. *Alan S. Manne, Kjell Roland and Gunter Stephan*. 14.1, 52–64

The social cost of imported oil. *Harry G. Broadman*. 14.3, 242–252

The US dollar and the world oil market. *Hillard G. Huntington*. 14.4, 299–306

Energy supply and demand

Energy use in the service sector: an international perspective. *Lee Schipper, Steve Meyers and Andrea N. Ketoff*. 14.3, 201–218

Energy sector investment in LDCs: the credibility gap widens. *Andrew MacKillop*. 14.4, 329–346

Fossil fuel competition in the UK industrial crude heat market. *Jim Skea*. 14.4, 347–362

Household energy consumption in Slovenia: ten years after the first oil shock. *Tine Stanovnik*. 14.3, 272–280

Information technology and energy supply. *William Walker*. 14.6, 466–488

Negotiating energy futures: the politics of energy forecasting. *Atle Midtlun and Thomas Baumgartner*. 14.3, 219–241

A practical plan for stabilizing Norway's energy consumption. *Kjell Kalgraf, Jonathon Owens and Morten H. Raaholt*. 14.6, 500–514

The pricing of transport fuels. *Joy Dunkerley and Irving Hoch*. 14.4, 307–317

National energy profiles and government policy

Cooking in West Sumatra: interfuel substitution and the choice of cooking method. *Sally Down*. 14.6, 542–557

An economic appraisal of local energy conservation schemes. *Richard R. Barnett*. 14.5, 425–436

Electricity trade in the UK: economic prospects and future uncertainty. *Hadi Dowlatabadi and Nigel Evans*. 14.1, 35–44

Energy conservation programmes: the analysis and measurement of their effects. *Raymond S. Hartman*. 14.5, 425–436

An energy-efficient future: a strategy for the UK. *John Chesshire*. 14.5, 395–412

Fossil fuel competition in the UK industrial crude heat market. *Jim Skea*. 14.4, 347–362

Household energy consumption in Slovenia: ten years after the first oil shock. *Tine Stanovnik*. 14.3, 272–280

A practical plan for stabilizing Norway's energy consumption. *Kjell Kalgraf, Jonathon Owens and Morten H. Raaholt*. 14.6, 500–414

The process of government and UK oil participation policy. *D Hann*. 14.3, 253–261

Should the UK be talking to OPEC?: strategies for a non-OPEC oil producer. *G.W. Hope*. 14.6, 489–499
Standing charge rebates: costs and benefits. *Michael Gibson and Catherine Price*. 14.3, 262–271
US power plant location and fuel mix: opportunities for electricity exporting regions. *Frank J. Calzonetti, Patrick C. Mann and Tom S. Witt*. 14.6, 528–541
Vehicle stock modelling of highway energy use: Tunisian and UK applications. *David L. Greene, Nabil Meddeb and Jin-Tan Liu*. 14.5, 437–446

Nuclear power

The future cost of uranium enrichment: technology and economics. *Anastassios Pouris*. 14.6, 558–567
Nuclear financial risk: economy-wide costs of reactor accidents. *Carolyn D. Heising and Varghese P. George*. 14.1, 45–51

Oil and gas

Gas market prospects and relationship with oil prices. *Jacques Percebois*. 14.4, 329–346
The impact of Middle Eastern methanol exports to Western Europe. *John C. Fahy*. 14.1, 24–34
The process of government and UK oil participation policy. *D. Hann*. 14.3, 253–261
Progressive mobilization of oil resources: a factor in ensuring moderate price rises, part 2. *P.C. Desprairies, X. Boy de la Tour and J.J. Lacour*. 14.1, 15–23
Security of supply in the Western European market for natural gas. *Alan S. Manne, Kjell Roland and Gunter Stephan*. 14.1, 52–64
Should the UK be talking to OPEC?: strategies for a non-OPEC oil producer. *C.W. Hope*. 14.6, 489–499
The social cost of imported oil. *Harry G. Broadman*. 14.3, 242–252
The US dollar and the world oil market. *Hillard G. Huntington*. 14.4, 299–306

Third World energy

Cooking in West Sumatra: interfuel substitution and the choice of cooking method. *Sally Down*. 14.6, 542–557
The economics of improved charcoal stoves in Kenya. *Eric L. Hyman*. 14.2, 149–159
Energy sector investment in LDCs: the credibility gap widens. *Andrew MacKillop*. 14.4, 329–346
From farm gate to food plate: energy in post-harvest food systems in south Asia. *Jyoti K. Parikh*. 14.4, 363–372

Editorial comment

Crude and product prices now in sync. 14.3, 194–195
Oil forecasting after the 1986 price fall. 14.4, 290–291
The regulation of private monopolies. 14.1, 2–3

Communications on energy

Attitudes to fuel choice in UK industry: results of a survey. *Jim Skea*. 14.6, 568–570
The changing energy market in FR Germany, 1973 to 1985. *H.W. Schiffer*. 14.1, 81–85
A critique of the CEGB's economic case for a PWR at Sizewell. *J.W. Jeffery*. 14.1, 65–78
A gap that should be filled – the achievement of UNICHAL. *Norman Jenkins*. 14.5, 450–451
Natural gas in Australia. *Ferdinand E. Banks*. 14.1, 86–88

Nuclear issues in FR Germany: the legal dimension. *Keith Clement*. 14.1, 79–81
Optimism sizing of investment in CHP plant for beverage-related process industries. *S.D. Fawkes and J.K. Jacques*. 14.2, 167–171
The Pennyland low-energy housing project – results and lessons. *Robert Lowe*. 14.5, 447–450
Renewable energy and environment policies in Africa. *Asit K. Biswas*. 14.3, 281–284
Review of the US Residential Conservation Service. *Eric Hirst*. 14.2, 164–166
Simulation study on falling oil prices: supply–demand and price scenarios to 2000. *Takao Tomitate*. 14.6, 571–574
Tidal power: a matter of faith, hope and policy. *Arthur Conway*. 14.6, 574–577
Torners and Hunterston: as uneconomic as Sizewell B. *J.W. Jeffery*. 14.4, 374–377

Viewpoints

After Sleipner: a policy for UK gas supplies. *Jonathan Stern*. 14.1, 9–14
AGR *v* PWR: the debate continues. *David Green*. 14.1, 4–8
Does anyone lose through a short-term trough in oil prices. *Andrew MacKillop*. 14.4, 297–298
Energy Efficiency Year 1986: what is in it for domestic consumers? *David Green and Susie Parsons*. 14.2, 98–100
Energy security in the industrialized world. *Guy de Carmoy*. 14.4, 292–296
In search of the peaceful atom. *Walter C. Patterson*. 14.3, 196–200
Regulation of gas and electric utilities in the USA. *Ian Brown*. 14.2, 101–103

Conference reports

Eighth International Conference of the International Association of Energy Economists (IAEE), Tokya, Japan, 5–7 June, 1986. *Mark Allen Bernstein*. 14.5, 452–453
Eleventh Annual Symposium of the Uranium Institute, London, UK, 2–4 September 1986. *Arthur Conway*. 14.6, 579–580
Fourth Surrey International Conference on Energy Demand: Prospects and Trends, Guildford, UK, 10–11 April 1986. *Chris Hope*. 14.4, 373
GASTECH '85, 11th International LNG/LPG Conference, Nice, France, 12–15 November 1985. *M. Swiss*. 14.2, 173–174
Radioactive Waste Management: UK Policy Examined, London, UK, 24–25 April 1986. *Ray Kemp*. 14.5, 453–454
Second European Conference on Coal-Liquid Mixtures, London, 16–18 September 1985. *Arthur Conway*, 14.1, 88–89
Seventh Annual North American Conference of the International Association of Energy Economists, Philadelphia, USA, 10–13 December 1985. *Mark Allen Bernstein*. 14.2, 172–173
Seventh International Symposium on Petroleum Economics, Château Frontenac, Canada, 6–8 November 1985, *Ferdinand E. Banks*. 14.1, 90–91
Tenth Annual Symposium of the Uranium Institute, Institution of Electrical Engineers, London, 3–5 September 1985. *Arthur Conway*. 14.2, 174–175
Third World Energy Policy Study Group, University of Reading, UK, 18 April 1986. *John Soussan*. 14.6, 577–579
Town and Country Planning Conference on a Responsible Energy Policy for Britain, Bristol, UK, 15–16 October 1985. *David Hough*. 14.1, 91–92
Workshop on Energy Policy Formulation and Implementation, University of Sussex, Brighton, UK, 27 September 1985. *Andrew Barnett*. 14.2, 176–178

Book reviews

Beyond Oil: The Threat to Food and Fuel in the Coming Decades by John Gever, Robert Kaufman, David Skole and Charles Vorosmarty (John Bratland). 14.5, 458–459
Bioenergy and Economic Development: Planning for Biomass Energy Programmes in the Third World by William Ramsay (Diana Schumacher). 14.1, 93–94
Combined Heat and Power Lead City Schemes. House of Commons Select Committee on Energy, publication HC235 (Norman Jenkins). 14.5, 460–462
Criteria for Energy Pricing Policy edited by Corazon M. Siddayao (David Pearce). 14.3, 285–286
Electricity in Europe: Present Status and Prospects for the 1990s by Andrew Holmes (Arthur Conway). 14.2, 181–182
Energy: For Ourselves and Our Posterity edited by Richard L. Perrine and W.G. Ernst (Ronald P. Steenblik). 14.4, 382–383
Global Energy: Assessing the Future by Jae Edmonds and John M. Reilly (Asit K. Biswas). 14.5, 459–460
Integrated Energy Planning: A Manual in Three Volumes, Plus Executive Summary by the Asian and Pacific Development Centre (Tom Berrie). 14.4, 378–381
International Gas edited by Paul Stevens (Jonathan Stern). 14.6, 582–583
Natural Gas in the UK: Options to 2000 by J.P. Stern (Catherine Price). 14.5, 457–458
Natural Gas Trade in North America and Asia by Jonathan P. Stern (Harry G. Broadman). 14.2, 178–180
The New Nuclear Nations by Leonard Spector (Warren Donnelly). 14.2, 183–184
The Political Economy of Global Energy by R.K. Pachauri (Paul Tempest). 14.3, 286–287
Political Risk in the International Oil and Gas Industry by Howard Lax (Harry G. Broadman). 14.2, 178–180
The Politics of Energy Policy Change in Sweden: A Review by R. Sahr (Roland Andersson). 14.2, 180–181
Power Tomorrow – Sizewell B: The Central Electricity Generating Board's Case by Geoffrey Greenhalgh (L.G. Brookes). 14.6, 583–584
Prospects for the World Oil Industry by Tim Niblock and Richard Lawless (Ferdinand E. Banks). 14.2, 182–183

Bookwatch

Petroleum stays fluid: Renewables revisited. *Arthur Conway*. 14.6, 585–586

Letter from Washington

By their regulations ye shall know them. Warren H. Donnelly. 14.3, 287

News of the World Bank

14.4, 385–386; 14.5, 455–456; 14.6, 581–582

Profile

Can a successful city-wide CHP scheme be launched in the UK? *Ian Jarvis*. 14.2, 160–163

Letters to the editor

An answer to a question posed by Professor Walter Goldstein. *Ferdinand E. Banks*. 14.2, 184–185
Fuel types and energy efficiency: *Anastassios Pouris*. 14.5, 454–455
Investment in industrial CHP. *Christopher Swain*. 14.6, 587–588
Large versus small – need for systems approach. *Juhani Vira*. 14.4, 383
The political economy of coal. *Ferdinand E. Banks*. 14.1, 95–96
A reply. *Ronald P. Steenblik*. 14.1, 96
Soviet energy. *David Wilson*. 14.1, 96
The subsidized 'cheapness' of French nuclear electricity. *J.W. Jeffery*. 14.4, 384–385

Publications received

14.2, 185–188; 14.4, 386–388; 14.5, 462–463; 14.6, 588

Meetings on energy

14.1, 94–95; 14.2, 188–189; 14.3, 288; 14.4, 388–389; 14.5, 464–465; 14.6, IBC
